

AssureRx

Innovative, Patient-Centered,
Connected Care Platform

assurecare®

Transforming Practice with AssureRx

Pharmacies face major hurdles in expanding their clinical services and securing reimbursements. Payors need effective providers to engage and treat their members but often encounter challenges with limited access to qualified pharmacy professionals and supporting flexible payment models like FFS, PMPM, PFP, and bonuses.

AssureRx facilitates seamless communication between payors, providers, patients, and pharmacy teams, streamlining these processes. Our workflow-driven pharmacy solutions by AssureCare are designed to help our clients identify and close care gaps, improve medication adherence, enhance the pharmacist's role, and positively impact patient care.

Trusted by a network of over

2,500

pharmacies nationwide

AssureCare pharmacy solutions actively support and improve the lives of over

15M

patients

Enabled a 10x increase in clinical services and completion of over

\$150M

in additional revenue for pharmacies

Services Tailored to Meet Pharmacists' Needs

Credentialing and Enrollment

We focus on the distinct challenges of pharmacist provider credentialing, including maintenance, re-credentialing, and negotiating better reimbursement rates.

Revenue Cycle Management (RCM)

Healthcare RCM specialists who recognize the importance of a robust revenue cycle in your practice, from claim submission to denial management.

Electronic Health Records

Document and medically bill for clinical services, as well as communicate with providers using our ONC-certified Electronic Health Record.

AssureRx Clinical Services

Medication Management Has Never Been Easier with AssureRx

For Payers and Providers

AssureCare offers analytics, workflow automations, and Medication Management solutions supporting MTM Programs, medication reconciliation, adherence, and care gaps for commercial, Medicare, and Medicaid plans. Our patient-centric platform facilitates interdisciplinary collaboration in Care Management, Utilization Management, and Pharmacy to improve care quality and medication-related outcomes, reducing healthcare costs.

For Pharmacies

AssureCare offers high-quality solutions for pharmacies, including seamless integrations with dispensing systems, efficient workflows, targeted vaccine programs, analytics aligned with PQA and Star Measures, credentialing, ONC-certified EHR, revenue cycle management services, and specialty pharmacy workflows.

For Specialty Pharmacies

Integrating AssureCare's Specialty Pharmacy module with prescription dispensing systems will improve communication between pharmacists and patients, streamline medication management, and provide more personalized care, resulting in better health outcomes.

We are committed to transforming pharmacy practices and business models. Contact us today to find out how AssureCare can meet your unique needs.
