

# AssureRx: Workflow Solutions for Community Pharmacies

We are passionate about the success of community pharmacies.

AssureCare offers two workflow solutions for community pharmacies: a robust Medication Therapy Management platform and a certified EHR for clinical visit documentation and medical billing.

## Clinical Visit Documentation for Medical Billing

AssureCare's ONC-certified EHR platform makes billing for clinical visits possible. Pharmacists can document visits for tobacco cessation, naloxone, hormonal birth control, and vaccines, then medically bill for these services. AssureCare's complete revenue cycle team handles all billing, relieving pharmacists of that role while promoting an additional revenue stream for the pharmacy. Credentialing and enrollment services can be provided to assist pharmacists with payer enrollment to ensure maximum, timely reimbursement.

## Medication Therapy Management (MTM)

AssureCare's integrated platform makes MTM easy, efficient, and effective for community pharmacies. Completing medication reviews in a user-friendly interface saves community pharmacists time and frustration. The platform can include care and utilization management to expand benefits reviews where appropriate. eCarePlan integration enables seamless data exchange between systems.

## About AssureCare

AssureCare is a privately held healthcare technology company that transforms the health management process for payers, providers, and pharmacies by enabling the delivery of higher quality, cost-effective, collaborative care across the complete continuum of care. AssureCare's iPatientCare platform is a patient-centric, boutique electronic health record software suite that empowers providers to deliver effective and efficient patient care. AssureCare's MedCompass platform supports Medication Therapy Management solutions alongside care and utilization management. AssureCare is considered an industry leader in developing modular, seamless solutions designed to improve patient outcomes and reduce avoidable costs associated with population health management. AssureCare is a Vora Ventures portfolio company with headquarters in Cincinnati, OH.

## Contact Us

For more information on how AssureCare's platform can assist your community pharmacy, email us at [info@assurecare.com](mailto:info@assurecare.com), visit us online at [www.assurecare.com](http://www.assurecare.com), or call us at 513-618-2150.

In preparation for provider status, implementing a **certified EHR** for clinical visit documentation can prepare your pharmacy to accept reimbursement from Medicare and commercial payers.

We have today's solutions ready for tomorrow.
